SUMMARY

Design engineer and startup founder from Mexico City with 8 years of experience in designing and building full stack production-ready apps and websites, product/project management and strategy.

EXPERIENCE

Design Engineering at Reticular

2026

Reticular is a YC-backed embryo analysis company. I was responsible for designing and developing a mobile app for parents looking to conceive. Built with Swift, Supabase and Modal. Implemented AI chatbots that reliably provided actionable information to parents.

Founder at JAWA

2024–2026

JAWA was a company that sold coffee in mobile carts around Mexico City. Our goal was to build a network of coffee carts around the city to learn how informal commerce can evolve into the digital era. We built an app and developed a full mobile cart that was able to distribute coffee in 5 different locations with 5k+ cups sold.

Design Engineering at Toppings

2023–2024

Toppings was a food delivery app for students in the Boston area that helped you save on food by picking food for others. I was responsible for developing the mobile app using React Native (Expo). Designed a GraphQL / Apollo layer on top of Prisma + PostgreSQL. Implemented automated tests with React Testing Library, Github Actions CI/CD.

Founding Design Engineer at RemNote

2021–2023

RemNote is the #1 note-taking app for students. It combines flashcards with note taking in one very simple app. I was in charge of designing and the first versions of the app for mobile and web. We established an internal design-system pipeline (Figma tokens → Storybook) that halved UI implementation time.

Co-founder and Head of Product at Warp

2017–2021

Warp was a digital bank for Mexico's underbanked population. Designed and implemented features across multiple platforms: Web, Mobile and point of sales systems. Executed growth strategies that resulted in 10,000+ signups through our website and app.

AWARDS

2021 Pioneer.app Winner (W20)

Pioneer is a startup accelerator that rewards young and ambitious startup founders.

2021 Emergent Ventures Fellowship

The fellowship was launched by Peter Thiel and Tyler Cowen with the mission to jumpstart high-risk, high-reward ideas that advance prosperity, opportunity, and wellbeing.

2021 Inflection Grant Winner

\$2,000 grant. If you're under 25 and \$2,000 or less can meaningfully change your life, we want to hear from you.

EDUCATION

2021–22 Universidad Nacional Autónoma de México

Bachelor of Social Sciences – Sociology. Completed
